Property observation record

Record evidence before assigning a permanent use.

Property / project: _____ Date: _____

Location / condition	Observed + date	Verify / next check
Sun and shade		
Surface water		
Slope and low spots		
Trees / vegetation		
Access / utilities		
Septic / protected areas		

NEXT DECISION / FOLLOW-UP

KFARM EDUCATION BOOK / PLAN

Zones and daily routes

Mark fixed constraints first; then connect the tasks you repeat.

Property / project: _____ Date: _____

Zone / destination	Daily task / route	Access / space to keep
House / entry		
Garden / greenhouse		
Storage / deliveries		
Compost / waste		
Animal care		
Future expansion		

NEXT DECISION / FOLLOW-UP

First-year project budget

Use written estimates. Keep a separate reserve for uncertainty.

Property / project: _____ Date: _____

Category	Planned $	Actual $	Next action
Property verification			
Access / water / utilities			
Storage / fencing			
Growing systems			
Animal infrastructure			
Tools / rentals			
Contingency			
Deferred projects			

NEXT DECISION / FOLLOW-UP

Site preparation checklist

Record the evidence that makes each area ready for work.

Property / project: _____ Date: _____

Work area / step	Confirmed / unknown	Responsible / date
Mark work limits		
Locate buried utilities		
Protect fixed systems		
Confirm work access		
Choose staging area		
Arrange waste removal		

NEXT DECISION / FOLLOW-UP

Project readiness record

Resolve dependencies before committing to permanent construction.

Property / project: _____ Date: _____

Project / dependency	Evidence / approval	Next action / owner
Purpose and location		
Property-specific rules		
Utilities / service access		
Materials / quote		
Work sequence		
Inspection / completion		

NEXT DECISION / FOLLOW-UP

Growing system planner

Match the growing area to observed light, water and maintenance time.

Property / project: _____ Date: _____

Bed / growing area	Light / water notes	Crop / season / task
Area 1		
Area 2		
Area 3		
Area 4		
Area 5		
Season extension		

NEXT DECISION / FOLLOW-UP

Animal system readiness

Prepare care capacity, housing and supplies before adding animals.

Property / project: _____ Date: _____

System	Ready / gap	Action / due date
Local permission / limits		
Housing and ventilation		
Predator protection		
Feed / dry storage		
Water / backup		
Care / waste / health plan		

NEXT DECISION / FOLLOW-UP

Weekly operating record

Assign recurring work and record when it was actually completed.

Property / project: _____ Date: _____

Task / system	Frequency / owner	Done / next due
Water / reserves		
Feed / bedding		
Storage / tools		
Waste / compost		
Fences / buildings		
Seasonal inspection		

NEXT DECISION / FOLLOW-UP

Revenue idea worksheet

Separate assumptions from actual results before expanding.

Property / project: _____ Date: _____

Item	Estimate / evidence	Actual / next action
Customer and offer		
Sales channel / demand		
Price and volume		
Direct costs		
Recurring costs		
Time / capacity		
Rules / records		
Decision: test / revise / stop		

NEXT DECISION / FOLLOW-UP
